Currently, we are not implementing any COVID restrictions such as proof of vaccination and mandatory masks but ALL Residents should be ready to pivot on short notice if public health conditions or guidance change prior to or during the summer.

Please ensure that you are aware of and follow the government health and safety protocols and guidelines in place just before your stay, when entering the Residence and during your stay.

The University has paused the requirement for all members of our community to be fully vaccinated in order to come to campus but we strongly encourage everyone to remain up-to-date on vaccination along with boosters as it offers the best protection against severe illness and will also reduce isolation requirements and disruptions to on-campus activities in the event that you are exposed to COVID-19 or test positive. It will also minimize disruption should conditions require vaccine requirements to be reimposed.

Latest UofT COVID-19 updates can be found at: <https://ehs.utoronto.ca/covid-19-information/>.

While the current pause in our mandatory mask requirement continues, the use of a well-fitting medical mask in high-density indoor spaces when physical distancing is not possible is strongly encouraged during the period when cases are rising in Ontario. Indoor University spaces include: lobbies, elevators, hallways and corridors, stairwells, washrooms, service desks, cafeterias and lunchrooms, common areas in residences, study lounges, meeting rooms, classrooms, research and teaching labs, shared or open-space offices, and other locations used in common, particularly where practicing physical distancing may be difficult or unpredictable. The University is a mask-friendly environment, and we ask everyone to respect each other's decisions, comfort levels, and health needs.

The provincial self-assessment tool <https://www.ontario.ca/self-assessment/> can help provide guidance and information for those that have any symptoms of illness or tested positive for COVID-19. Anyone who is sick or has any symptoms of illness, including those not listed in this self-assessment tool, should stay home and seek assessment from a health care provider if needed.

The University has implemented changes to cleaning protocol that include increased cleaning of shared public spaces as needed and the addition of hand sanitizer stations at main entrances.

New College highly recommends that Residents bring a supply of rapid test kits to self-monitor if showing symptoms of COVID-19. Rapid test kits can be sourced here: <https://www.ontario.ca/page/rapid-testing-home-use>.

The Resident will not book the Room for the purpose of quarantining or isolating individuals who have tested positive for COVID-19, have symptoms of COVID-19 or have been identified as a household close contact (including "presumptive positive" cases).

The Occupancy Agreement shall be subject at all times to: (i) University guidelines, signage, policies and directives; and (ii) government orders, directives or public health guidelines, directives or recommendations in existence during the Term of the Agreement (collectively, "Public Health Orders").

The University reserves the right to deny access to University premises, including the Residence, to any person who fails or refuses to comply with Public Health Orders in effect from time to time.

The University may terminate the Occupancy Agreement immediately if Resident fails to observe any Public Health Orders. The University shall have no liability to the Resident as a result of such termination and no obligation to refund any amounts paid by the Resident.

The University may terminate the Agreement at any time due to circumstances resulting in any Public Health orders, as amended and updated. In the event of such termination, the University shall not be responsible for any losses, damages, or expenses whatsoever suffered by the Resident. The Resident shall only be entitled to a refund of the fees it has paid to the University.

In no circumstances shall the University be liable for loss of profit or for other similar consequential damages based on breach of contract, warranty or otherwise if, due to a compliance with Public Health Orders or actions or directives taken by the University, if it is required to terminate the Occupancy Agreement.

As updated health guidelines evolve during Occupancy Period, all Residents, Guests, Visitors may be subject to additional health screenings.

It is vitally important that, even with the easing of provincial measures, we remain vigilant, conscientious, and respectful of one another.

As health measures change, all Residents will be notified and there will be updated health and safety posted signage throughout the residence. Some examples may include signage respecting elevator occupancy limits, space closures, requirements to wear face coverings or masks, physical distancing and to instructions to yield and follow directional markings. Please follow all posted COVID-19 health and safety guidelines for elevators, stairwells, washrooms and common rooms.

Non-compliance with health and safety recommendations may pose a health and safety threat to the community and will be treated as a serious matter. The University will make every effort to resolve these issues informally when possible and appropriate but may also impose sanctions where individuals or groups of Residents are not in compliance with these rules. These sanctions will depend on the nature of the non-compliance, the place in which it occurred, and the impact on others. Sanctions include but are not limited to fines, restricted access to spaces, and expulsion from the Residence. Enforcement, sanctions and appeals to sanctions will be carried out in accordance with existing residence policy. The University reserves the right to report non-compliance to Public Health officials or to any other official, within or outside the University, who need to know about the non-compliance in order to protect the health and safety of the University community or the public.
